

Georgina Humphreys

SECTION A: INDIVIDUAL INFORMATION

A.1. Personal Information

Name	Georgina Humphreys, PhD
Post or Position	Independent Research Consultant
Employer, Research Institution or Affiliation	GSHumphreys Consulting

A.2. Short Biography

Georgina is an experienced scientist with a commitment to maximising the benefits from research data. Her consulting portfolio includes acting as the Secretariat for an Independent Review Panel that considers applications for data access through clinical data sharing platforms and supporting Research Consulting in an associate capacity, bringing specialist expertise in the management and sharing of clinical research data.

In a previous role at HDR UK she managed the Grand Challenge ICODA projects working directly with the PIs to enable their secondary data analyses and maximise the impact and uptake of their work.

Whilst working within the Open Research team at Wellcome she led the development and implementation of the Trust's clinical trial and data sharing policies, including transparency of results reporting and encouraging data sharing and re-use to maximise the impact of research on improving human health.

Since 2019 she has been a Board Director of ISRCTN (UK clinical trial registry) and is a member of the Health Research Authority 'Make it public' transparency group.
